## **Rosenberger OSI again honored at the IT Awards 2019**

*Cabling specialist receives the Platinum Award in the category "Data Center Cabling"*

**Augsburg, October 25, 2019** – Rosenberger Optical Solutions & Infrastructure (Rosenberger OSI), manufacturer of innovative fiber optic cabling infrastructures in Europe, has once again received an award from the German publishing house Vogel IT-Medien. The company received the Platinum Award at the IT Awards 2019. This is the fourth time in a row that the company has received this award (2016 with silver, 2017 and 2018 with platinum).

Due to the very positive response to the IT Awards in previous years, the seven insider portals DataCenter-Insider, BigData-Insider, CloudComputing-Insider, Dev-Insider, IP-Insider, Security-Insider and Storage-Insider called for voting on the IT companies of the year again in 2019. Until 31 August 2019, readers were able to vote for the best individual providers in seven categories. For the vote, the editorial team selected ten providers in each category who excelled or distinguished themselves in the past year.

In a festive evening gala on 24 October 2019, in the Steigenberger Hotel "Drei Mohren" in Augsburg, the winners of the silver, gold and platinum places from a total of 43 groupings were handed over by the chief editors of the insider portals of Vogel IT-Medien.

Rosenberger OSI was awarded the Platinum Award in the category "Data Center Cabling" during the gala. "The renewed award makes us very proud and we are very pleased to be able to convince for the fourth time in a row with our product innovations", says Thomas Schmidt, Managing Director of Rosenberger OSI.

###

**About Rosenberger OSI:**

Since 1991, Rosenberger Optical Solutions & Infrastructure (Rosenberger OSI) has been an expert in innovative fiber optic cabling infrastructure and service solutions for Datacom, Telecom and Industrial. The products and services can be found wherever largest amounts of data have to be transferred quickly and securely. In addition to the development and production of a broad portfolio of fiber optic and copper cabling systems, Rosenberger OSI also offers a variety of services such as planning, installation and maintenance of cabling infrastructure. Rosenberger OSI employs about 600 people in Europe and has been a part of the globally operating Rosenberger Group since 1998, a worldwide leading provider of high-frequency-, high-voltage-, and fiber-optic-connection solutions headquartered in Germany.
